

Northern Ontario Excellence Award

Wood Design Awards honour the creators of new projects that push the limits of wood design in structures that demonstrate excellence in the use of wood. Winning projects will showcase the special qualities of wood such as strength, durability, beauty, versatility, and cost-effectiveness.

The Northern Ontario Excellence Award recognizes the significant contribution Northern Ontario makes to the forest economy and the special link that exists between this industry and northern communities. This award focuses on projects unique to northern Ontario that honour this relationship through the use of Ontario wood products.
